appointed yesterday by the association of business men organized to bring the Baltimore club, of the International League, to Richmond will, it is belleved, he so nearly complete by tomorrow afternoon that the dream of baseball lovers of having a higher class of the sport in Richmond will be realized. Under the plans arranged yesterday, the city is divided into prescribed sections, and committees were sprointed to cover the whole of Rich mond. Enthusiasm for the project has been developed to a high degree, and even staid business men, seeing in the scheme another means of boosting Richmond before the country, have entered into the work with an ardor that necessarily between the scheme and the scheme and the scheme are seen to be seen seen to ticemions before the country, have entered into the work with an ardor that necersarily betokens success. A committee, composed of J. St. George Bryan, W. B. Pizzini and George M. Cease, reported that it had interviewed Thomas R. McAdams, president of the Richmond club, of the Virginia League, and that he had said no obstacles would be placed by the local club in the way of bringing the Baltimore team to Richmond. Jack Dunn, owner of the latter club, is ready to move bag and baggage to Richmond on twenty-four hours' notice. He is as enthusiastic to come as Richmond is to have him and his team He is well known in the field of sport, is popular and stands well in the estimation of the National Commission, Reserving to himself 50 per cent of the stock of the company to be chartered, he will always be sufficiently interested in the club to maintain it on its present high plane.

Young Enlisted Mas in Navy Impersonated Another in Examination.

Annapolis, Md., June 27.—M. P. Harris, of Mississippi, a young enlisted man in the navy, to-night was excorted to the boundaries of the government reservation and dishonorably discharged from the service because he had impersonated another man in an examination for admission to the Naval Academy as a midehipman.

Harris won a designation to take the entrance tests. He passed the tests and later took the place of T. B. Longre, also of Mississippi, and passed the first examination for him in Virginia. When Longre appeared at the Naval Academy to take the physical test the deception was discovered, because his handwriting did not agree with that in the first examination papers. Although kept in ignorance of the investigation by the academy authorities, and told that he was suffering from a slight physical affection, Longre left the academy when publicity was given to the affair, and did not return.

That did not include the Panama Canal expenditures, estimated at \$35,000,000.

Next year, he declared, Panama expenditures would practically pass awey, and the canal receipts would nay funding expenses.

and the canal receipts would nay running expenses.

INCREASE GRANTED FOR

COLLECTING INCOME TAX

Mr. Underwood's speech was in support of the Senate amendment to the legislative appropriation bill to increase the Treasury fund for collecting the income tax from \$1,000,000 to \$1,500,000, which the House finally decided to do. Mr. Underwood explained that the increase was for collection of the income tax from persons and corporations trying to evade it.

"For next year," he predicted, "we can be assured of collecting more than \$100,000,000 from the income tax, even if no more proportionately is collected than was collected this year, and more proportionately will be collected."

Mr. Underwood said customs receipts were producing in the current year \$22,000,000 more than the administration had expected, and that the Treasury Department reported to him these figures of the total revenues for the current year just ending:

## JUDGE CAMPBELL ENTERS DECREE FOR BIGGER CITY

Sixteen Square Miles of Territory to Be Added to Area on September 1.

### INCLUDES SUBURBAN TOWNS

While Lines Are Modified, Practically All Populated Territory Is Included.

Richmond won a sweeping victory yesterday, when Judge A. A. Campbell, sitting in the Henrico Circuit Court, entered a decree annexing approximately sixteen square miles of suburban territory to the city, effective September 1. Although the court modified to some extent the lines proposed in a Council ordinance, the city secures practically all of the populated area, the decree having the effect of increasing the population by from 18,000 to 20.000 recents.

to 20,000 people.

Richard Evelyn Byrd, of counsel for Henrico County, announced that there would be an appeal, but, though this may have the effect of delaying the date on which the Greater Richmond will become effective, those who have watched the care with which Judge Campbell has excluded improper evidence, and the personal attention he has given to drawing the lines, do not believe that reversible error can be found or that the lines established by Judge Campbell will be upset.

MOVEMENT ALREADY ON FOOT

TO OBVIATE APPEAL

Already a movement is on foot to take advantage of a suggestion of the court that the city make some concession to the county for the maintenance of roads leading into the city, in return for which the county withdraw its motion for an appeal.

Judge Campbell had intended to return to Richmond on July 4, but, after hearing Mr. Byrd's motion, announced that he would give the county until July 14 to prepare its exceptions, and on that date he will hear argument on the final decree. Meanwhile, the decree directs City Engineer Bolling to survey the lines laid down, and directs City Auditor Crenshaw to furnish the court certain statistical information as

provide a specified sum of money for the upkeep of county roads. Campbell goes into this matter exhaustively in his opinion, holding that, while there is some doubt, he is of the belief that he has no authority to with a great deal of interest to the arguments of counsel, and is satisfied that by reason of the forceful presentation of the different interests that it has been greatly benefited in arriving at a decision in this case.

From the evidence adduced the court is satisfied that it is necessary that order such payment of money on the ance with the court's suggestion. GIVE RICHMOND IN MAIN

THE TERRITORY ASKED FOR The decree gives Richmond in the main the territory asked for in the ordinance adopted by the City Cou The lines in Chesterfield County already been agreed upon, and the court followed the compromise settle-ment, excluding the property of the American Tobacco Company and other sections, but taking in all of Wood-land Heights, Forest Hill, Oak Grove and Swansboro, more than doubling the area on the Southside of the former city of Manchester.

North of the river the decree calls for the annexation of Highland Park, Ginter Park, Barton Heights, North Richmond, Colonial Place, Riverview, Sherwood Park, a portion of Monument Avenue Park and a part of the Patterson estate.

Belelvue, Wright's Park, the Hood

Nursery and the Belt Line railroad south of Cary Street are not included in the new territory. The Wyatt estate, in Chesterfield County, is omitted from

with the the city or the County of Henrico.

It is earnestly insisted by the county that Ginter Park, a beautiful suburb, should be allowed to remain in the county and that territory adjacent and contignees thereto should also be excluded. The court believes that to a large extent the wish of the territory annexed should be considered. As the court understands the position of Ginter Park and the surrounding territory, it does wish to become a portion of the city of Richmond. In the opinion of the court it is certainly expedient for the city of Richmond that this territory should be annexed.

How Taxes and lights of these towns become the property of the city. In all cases it is decreed that the water and sewerage systems of the city shall be extended hat the new territory as soon as population makes it necessary, the municipality using the town systems altone makes it necessary, the municipality using the town systems altone makes it necessary, the municipality using the city as soon as population makes it necessary, the municipality using the count systems should be continued into the court understands the position of Ginter Park and the surrounding territory, it does wish to become a portion of the city of Richmond that this is practically in the annexed area.
